

SUBJECT: Drip Tray

Number: 2021-02.2
Product: CIM
Date Issued: February 2021
From: Technical Services

CIM ice makers starting with February serial numbers (2102XXXXXXXXXX) now include a drip tray that is affixed to the base of the evaporator (see Figure 1). This drip tray is intended to capture any moisture due to condensation or leaking inside the evaporator. The drip tray tubing is attached to the drip tray (see Figure 2), and intersects (see Figure 3) with the purge valve tubing to drain.
