

Innovative.
Clean.
Efficient.
Limitless.

Now, a series of ice machines so advanced and environmentally-friendly it has elevated the entire industry to a new standard. And because it's from Ice-O-Matic, you know it's easy to use.

Simplicity. Elevated.

As one of the most advanced ice machines on the market today, the new Elevation Series from Ice-O-Matic is easy to clean, easy to operate, easy to service and environmentally responsible without sacrificing productivity. Only from Ice-O-Matic, the leader in ice, pure and simple.

Ice. Pure and Simple

INTRODUCING THE ELEVATION SERIES

The new standard in ice machine innovation.

The Elevation Series

The ultimate ice machine.

Limitless

Fit for any space.

Our exclusive, groundbreaking technology is designed to discharge hot air from both the side and the top of the Elevation unit, making it the ultimate solution for tight spaces regardless of air flow requirements.

Innovative

Designed for D.O.E. 2018 regulations and beyond.

The new Elevation Series is truly ahead of its time, meeting or exceeding all 2018 D.O.E. regulations with up to 20% more energy efficiency and digital controls that rigorously monitor energy use.

Simple

The way ice should be.

With its plug and play design, Elevation is easy to install. Its Mission Critical indicators keep you one step ahead of problems, while its Smart Harness™ control board, universal components and digital diagnostics make servicing a cinch.

Easy Cleaning

One touch. Done.

Elevation's one-touch sanitizing and descaling ensure the ultimate in food safety. The smooth, solid Food Zone allows for quick wipe down for every day cleaning, and dishwasher-safe components easily snap off and on.
